

**WASTE VEGETABLE OIL COLLECTION AGREEMENT**

This Agreement is entered into as of \_\_\_\_\_, 2007 between the undersigned restaurant ("Customer") and GeoGreen Biofuels ("GeoGreen"). The parties agree:

1. Customer grants GeoGreen the exclusive right to collect, transport and process all of Customer's waste vegetable oil (WVO) from the locations set forth below and GeoGreen agrees to provide such services to Customer (the "Services").
2. GeoGreen will provide the Services as needed, but at least monthly (each, a Service Date). GeoGreen will give Customer drums in which to store WVO in advance of the first Service Date. GeoGreen will give Customer one week's advance notice of the first Service Date, which will be after April 15, 2007. On each Service Date, GeoGreen will collect from Customer the drums containing WVO (and no other waste material) and will provide Customer with clean drums marked with the GeoGreen's logo. If, due to the volume of WVO, Customer requests additional, non-scheduled Service, GeoGreen shall perform such service as soon as practicable.
3. Customer warrants that WVO collected by GeoGreen will not contain material amounts of water or food scrap, or any radioactive, flammable, explosive, toxic or hazardous material.
4. Customer will provide unobstructed access to the drums on the scheduled Service Date.
5. This Agreement is for an initial term of two years commencing on the date above, and will automatically renew for successive one-year periods unless either party gives written notice to the other to terminate the Agreement effective at the end of the then-current period.
6. So long as Customer honors the exclusive arrangement referred to above and performs its obligations under this Agreement, Customer will not be charged for the Service. If Customer breaches its obligations hereunder, GeoGreen reserves the right to terminate the Agreement, or charge Customer for the Service at the then prevailing rates in the collection industry.

Signed and agreed:
